

Says

What have we heard them say?  
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?  
What other thoughts might influence their behavior?

ABINAYA .T

III B.Sc mathematics  
Ambiga college of  
arts and science  
college, madurai

learning  
outcomes

Students will be  
able to identify  
different modes of  
transportation and  
the vehicles used  
for each mode

student will learn  
about the  
uniqueness and  
similarity of the  
different vehicles

Analysis  
It allows airlines to assess  
flight delays, cancellations,  
passenger  
satisfaction,route  
performance, and other  
critical performance  
factors

Airlines dataset analysis  
application helps  
generate real time  
analytics,which enables  
airlines to respond  
swiftly to emerging  
issues and improve the  
passenger experience

How to  
work

To connect dataset  
tableau. convert the  
dataset to bi or par  
charts , and to find  
the shortest route  
to travel in airlines.

Feels  
about the  
overall  
project

Revenue,passenger  
mile, number of  
departures, number  
of passengers and  
available ton-miles

Number of  
departures is  
selected as an  
output variable  
because it indicates  
the network level of  
an airline

Does

What behavior have we observed?  
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?  
What other feelings might influence their behavior?
